Brazilian Jiu Jitsu 101 Sweeps English Edition

Brazilian Jiu Jitsu (BJJ) is a martial art centered around ground fighting and submission grappling, emphasizing technique, leverage, and strategy over brute strength. One of the fundamental aspects of BJJ is the ability to transition from a bottom position to a dominant top position through various techniques called "sweeps." Sweeps are essential for controlling the fight, scoring points in competitions, and setting up submissions. In this comprehensive guide, we will explore the fundamentals of BJJ sweeps, their classifications, key techniques, and strategies to incorporate them effectively into your game.

Understanding the Role of Sweeps in Brazilian Jiu Jitsu

What Are Sweeps?

Sweeps are techniques used to reverse the position from the bottom to the top. When a practitioner is on their back or in a disadvantaged position, sweeping allows them to off-balance their opponent and come on top, gaining control and scoring points in a competition setting. Unlike submissions, sweeps are positional techniques aimed at improving your position and setting up further attacks.

Why Are Sweeps Important?

- Position Control: Sweeps help you move from inferior to superior positions, such as from guard to mount or side control.
- Scoring Points: In gi and no-gi competitions, sweeping typically awards points, contributing to your overall score.
- Creating Submissions: From the top position after a successful sweep, you can apply submissions more effectively.
- Defensive Tool: Sweeps can counteract your opponent's pressure, allowing you to escape bad positions.

Types of Sweeps in Brazilian Jiu Jitsu

Sweeps can be broadly categorized based on the starting position and technique employed. Understanding these categories helps practitioners develop versatile and effective sweeping

strategies.

Closed Guard Sweeps

The closed guard involves wrapping your legs around your opponent's waist, providing numerous sweeping options.

Open Guard Sweeps

Open guard positions, such as spider guard, butterfly guard, or De La Riva, open up diverse sweeping techniques.

Half Guard Sweeps

Half guard is a position where one of your opponent's legs is trapped between your legs, offering unique sweep opportunities.

Standing Sweeps

These involve sweeping your opponent from a standing or semi-standing position, often used to initiate takedowns or reverse unfavorable positions.

Fundamental Sweeps in Brazilian Jiu Jitsu

In this section, we will detail some of the most foundational sweeps, their mechanics, and execution tips.

1. Scissor Sweep

A classic sweep from closed guard, effective for sweeping larger or stronger opponents.

- Shift your hips out to the side, and place your opponent's trapped arm between your legs.
- Use your legs to scissor across their body, pushing with your top leg while pulling with your bottom leg.
- Simultaneously push with your arms to topple your opponent onto their side or back.

- Follow through to establish top control or mount.

2. Hip Bump Sweep

Effective from closed guard against a postured opponent.

Steps to Execute:

- As they fall, follow to top position, ideally into mount or side control.

3. Flower Sweep (Pendulum Sweep)

A versatile sweep from closed guard, suitable for beginners and advanced practitioners alike.

Steps to Execute:

- Start in closed guard, controlling their posture.
- Trap one of their arms and open your guard slightly.
- Use a swinging motion with your legs (pendulum) to generate momentum.
- Push your hips out and swing your leg underneath your opponent's body.
- Use the momentum to sweep them over, ending in top position.

4. Butterfly Sweep

Commonly used from butterfly guard, effective for sweeping heavier opponents.

Steps to Execute:

- Establish butterfly hooks by inserting your feet inside your opponent's thighs.
- Control their posture and grip their arms or collar.
- Shift your hips and lift with your hooks.
- Use your upper body and legs to unbalance your opponent backward or to the side.
