- Worsen or are accompanied by dehydration or severe pain
- Indicate serious infections like meningitis or yellow fever

Having access to local healthcare facilities or international clinics can facilitate timely treatment.

Post-Travel Health Considerations

- Monitoring and Reporting

Upon return, travelers should monitor their health for symptoms related to illnesses contracted abroad. Some diseases have incubation periods extending weeks after travel, such as hepatitis or parasitic infections.

- Report any illness to healthcare providers, especially if symptoms develop within 30 days of return
