Commonly Encountered Questions in Everfi's Quizzes

While the exact questions can vary across different versions and user experiences, certain themes are recurrent. Below are some typical questions along with detailed explanations:

- What is the main purpose of taxes?

Answer: The primary purpose of taxes is to fund public services and infrastructure that benefit society as a whole. They enable governments to provide education, healthcare, transportation, safety, and social programs.

Elaboration: Taxes are an essential part of civic responsibility. They support the functioning of government agencies and community projects, ensuring societal stability and growth. Understanding this helps learners appreciate the importance of paying taxes and complying with tax laws.

- Which of the following is a form of income tax?

- A) Sales tax
- B) Property tax
- C) Federal income tax
- D) Insurance premium

Answer: C) Federal income tax

Explanation: Income tax is levied on earnings from work, investments, and other sources. Sales tax and property tax are different types of taxes, and insurance premiums are payments for insurance coverage, not taxes.

- Why might someone choose to purchase insurance?

Answer: To protect themselves financially against unexpected events or losses, such as accidents, health issues, or property damage.

Deep Dive: Insurance acts as a safety net. Without insurance, individuals might face significant out-of-pocket expenses that could lead to financial hardship. For example, health insurance helps cover medical bills, while auto insurance protects against costs from accidents.

- B) The color of the car
- C) The time of day the car is driven
- D) The brand of the car's radio

Explanation: Insurance companies assess risk based on factors like age, driving record, location, and vehicle type. Younger drivers or those with prior accidents typically face higher premiums. The color or brand of the radio has no bearing on insurance costs.

- What is a tax deduction?

Answer: A tax deduction reduces the amount of income that is subject to taxation.

Elaboration: For example, if you earn \$50,000 and have \$2,000 in deductions, your taxable income becomes \$48,000. This can lower your overall tax liability. Recognizing deductions helps learners maximize their tax benefits legally.
