The lack of a unified system often led to logistical challenges, coaching biases, and an uneven playing field.

The Need for a Unified National Test

Recognizing these issues, the Medical Council of India (MCI), along with the Central Government, pushed for a standardized examination system. The goal was to eliminate disparities, promote transparency, and ensure equitable access to medical education across all states. This culminated in the announcement of NEET UG, which aimed to replace multiple state-level and institution-specific exams with a single, nationwide test.
