Sample Problems and Solutions from the March 2014 Memo

Sample Problem 1: Quadratic Equation

Question: Solve the quadratic equation $(2x^2 - 5x - 3 = 0)$.

Solution Summary:

The memo shows that students should use the quadratic formula:

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

with $(a=2, b=-5, c=-3)$.

Calculating discriminant:

$$\Delta = (-5)^2 - 4 \times 2 \times (-3) = 25 + 24 = 49$$

Thus,

$$x = \frac{5 \pm \sqrt{49}}{4} = \frac{5 \pm 7}{4}$$

which gives solutions:

$$x = \frac{5 + 7}{4} = 3 \quad \text{and} \quad x = \frac{5 - 7}{4} = -\frac{1}{2}$$

Sample Problem 2: Geometry - Circle

Question: Find the equation of a circle with center at $(2, -3)$ and passing through $(5, 1)$.

Solution Summary:

The memo indicates using the standard form:

$$(x - h)^2 + (y - k)^2 = r^2$$

Calculate radius (r) :

$$r = \sqrt{(5 - 2)^2 + (1 + 3)^2} = \sqrt{3^2 + 4^2} = \sqrt{9 + 16} = 5$$

Therefore, the equation is:

$$(x - 2)^2 + (y + 3)^2 = 25$$

Common Types of Accounting Memos and Their Examples

Accounting memos come in various forms, each tailored to specific situations or needs within an organization. Below are some of the most common types along with illustrative examples.

1. Internal Clarification Memos

These memos are used to clarify accounting treatments, policies, or procedures within the organization.

Example: Clarification on Depreciation Method

Subject: Clarification on the Depreciation Method for New Machinery

Date: March 15, 2024

To: Finance Department

From: Senior Accountant

Purpose: To clarify the depreciation method to be applied to the recently acquired manufacturing equipment.

Content:

> As per the approval received on March 10, 2024, the new manufacturing machinery costing \$500,000 will be depreciated using the straight-line method over its estimated useful life of 10 years. This approach aligns with the company's existing policies on equipment depreciation. Please ensure that the depreciation expense is recorded accordingly starting from March 2024 and reflected in the monthly financial statements.

Conclusion: This memo confirms the depreciation method to be used for the new machinery, ensuring consistency in financial reporting.

2. Decision-Making Memos

These memos document managerial decisions related to accounting policies, investments, or financial strategies.

Example: Approval for Software Capitalization

Subject: Approval Request for Capitalization of Cloud Software Development Costs

Date: April 2, 2024

To: CFO

From: IT and Finance Teams

Purpose: To seek approval for capitalizing certain software development costs incurred during the quarter.

Content:

> The IT department has developed a new enterprise software solution, incurring development costs of \$250,000 during Q1 2024. Based on the accounting standards (ASC 350-40), these costs meet the criteria for capitalization as an intangible asset. Capitalizing these costs will impact our balance sheet and expense recognition over the asset's useful life. We recommend proceeding with capitalization, subject to approval.

Recommendation: Approve the capitalization of \$250,000 of software development costs as an intangible asset in the upcoming financial statements.

Conclusion: Proper approval will enable accurate reflection of the company's assets and expenses.

3. Audit or Compliance Memos

These memos document issues identified during audits or compliance reviews and outline necessary corrective actions.

> During the recent internal audit, it was observed that certain sales transactions recorded at the end of Q1 2024 may not fully comply with the revenue recognition criteria outlined in ASC 606. Specifically, some shipments were recognized prior to the transfer of control to the customer. To rectify this, all sales recorded in March should be reviewed, and any incorrectly recognized revenues should be adjusted in the financial statements. Moving forward, the sales team must ensure that revenue is recognized only when control is transferred.

Action Items:

- Conduct a detailed review of all Q1 sales transactions.
- Adjust financials as necessary before the upcoming audit.
- Reinforce revenue recognition policies with the sales team.

Conclusion: Ensuring proper revenue recognition aligns with audit standards and maintains financial integrity.
