Understanding the Essence of a Garden

What Is a Garden?

A garden is a carefully cultivated space, often outdoors, designed to grow plants, flowers, vegetables, herbs, or a combination of these. It serves multiple purposes: aesthetic pleasure, food production, habitat for wildlife, and personal relaxation. Gardens can range from small balcony containers to expansive botanical parks, each offering unique opportunities for creativity and connection with nature.

The Benefits of Gardening

Getting into the garden offers numerous benefits:
