2. Layer Ingredients Properly

Heavier, denser ingredients like root vegetables should be placed at the bottom, closer to the heat source, for even cooking.

Fill your slow cooker between half to three-quarters full for optimal heat circulation and cooking.

4. Adjust Cooking Times

Follow recipe guidelines but remember that slow cookers can vary. Use a meat thermometer to check doneness, especially for meats.

5. Use Fresh Ingredients

Fresh vegetables and meats yield better flavor and texture. However, frozen ingredients can be used if added early enough.

6. Keep Lid Closed

Resist the temptation to open the lid during cooking, as this releases heat and extends cooking time.

To prevent curdling or overcooking delicate ingredients, add dairy or fresh herbs during the last 30 minutes.
